2. Sum Insured(s)

The product offers you so much more! More benefits, More options and More Sum Insured. Sum Insured will be utilized as per following sequence in event of any claim:

1. Base Sum Insured
2. Booster+ Sum Insured
3. ReAssure+

3. Benefits available under the policy.
Different benefits have different limits or Sum Insured. A limit or Sum Insured is our maximum liability (basically this is the maximum claim we will pay) under the benefit. These limits & Sum Insured will be mentioned in your Policy Schedule.

3.1. Expenses in reaching a Hospital

3.1.1. Road Ambulance: We will pay you up to the mentioned limit in your policy.
3.1.2. Air Ambulance: Only in case of Emergency per hospitalization.

Note: This will be paid only if claim for Expenses during hospitalization is paid by us. You must always use a registered ambulance / air ambulance provider.

3.2. Expenses during Hospitalization

3.2.1. We will pay the expenses incurred by you on treatment (Naturally this excludes expenses not linked to treatment like food, beverage, toiletries and cosmetics). Basis the plan you choose; the hospital room (like single private room, general ward, twin sharing) you are eligible for will get fixed. Choose the option that matches your lifestyle, pocket and comfort needs.

- Admitted for **2 hours or more** (minimum 24 hours for AYUSH treatment in a AYUSH Hospital)

Note:

- **Cataract: Classic & Select Variant covers only Mono-focal Lens.**
- **We will NOT pay, even if you were hospitalized, if there was no treatment and only investigations were done. Examples: MRI, CT Scan, Endoscopy, Colonoscopy etc.**
- **We will NOT pay for Automation machine for peritoneal dialysis**
- **If you choose a room outside your plan's category, the Copayment (as per Annexure V) will apply on the entire claim.**

3.2.2. We pay for the below specified **Modern treatments**, up to what your plan covers,

1. Uterine Artery Embolization and HIFU (High intensity focused ultrasound)	2. Immunotherapy-Monoclonal Antibody to be given as injection	3. Vaporisation of the prostrate (Green laser treatment or holmium laser treatment)	4. Stem cell therapy: Hematopoietic stem cells for bone marrow transplant for haematological conditions
5. Balloon Sinuplasty	6. Oral Chemotherapy	7. Robotic surgeries	8. Stereotactic radio Surgeries
9. Deep Brain stimulation	10. Intra vitreal injections	11. Bronchical Thermoplasty	12. IONM - (Intra Operative Neuro Monitoring)

3.3. Expenses before and after hospitalization **(Pre & Post hospitalization)**
We will pay expenses incurred on consultations, medicines, physiotherapy, diagnostic tests for 60 days before the date of admission and 180 days after date of discharge **IF these are related** to the condition for which hospitalization claim is paid.

3.4. Home Care / Domiciliary Treatment
Home Care Treatment means treatment availed by the insured person at home which in normal course would require care and treatment at a hospital but is actually taken at home provided that:

3.4.1. The medical practitioner advices the insured person to undergo treatment at home
3.4.2. There is continuous active line of treatment with monitoring of health status by a medical practitioner each day through the duration of the home care treatment

3.4.3. Daily monitoring chart including records of treatment administered duly signed by the treating docto maintained

Note:

- We will pay for Pre & Post hospitalization benefit as per section 4.3 for Home Care / Domiciliary Treatment.
- **We pay for peritoneal dialysis, Chemotherapy taken at home.**
- **We do NOT pay for any Medical & ambulatory devices used at home** (like Pulse Oxymeter, BP monitors, Sugar monitors, automation device for peritoneal dialysis, CPAP, BiPAP, Crutches, wheel chair etc.)

3.5. Organ donor

If you ever undergo an organ transplant, we will pay the hospitalization expenses of the donor for harvesting the organ, **ONLY** when your Hospitalization claim is paid.

If you donate any of your organs, we will pay for the expenses for harvesting the organ from you. We respect this noble deed. Remember, **organ donation saves many lives.**

3.6. ReAssure Forever

The first paid claim in the life of the policy triggers ReAssure "Forever". Once Triggered it stays for life, provided that the policy is renewed without break.

Note:

- **Maximum amount ReAssure Forever pays for any single claim is up to Base Sum Insured.**
- We will consider a claim, if it is paid under the following: **Expenses in reaching a Hospital, Expenses during Hospitalization,** Expenses before and after hospitalization, **Home Care / Domiciliary Treatment, Organ Donor.**
- Expenses in reaching a Hospital and Expenses before and after hospitalization for the 1st ever hospitalization will be treated as the 1st claim itself.
- Applies only for policies where "Unlimited Sum Insured" option is not opted.

Illustration:

Year 1: Once the Policy is bought.

Base Sum Insured	**1st paid Claim**	**ReAssure Forever is triggered (Equal to Base Sum Insured)**	**Balance Base Sum Insured**	**2nd payable claim**	**Claim amount paid**	**Balance Base Sum Insured**	**3rd Payable claim**	**Claim amount paid**
10 Lakh	7 Lakh		3 Lakh	12 Lakh	12 Lakh (3 Lakh from Base Sum Insured and 9 Lakh from **ReAssure Forever**	Nil	11 Lakh	10 Lakh from **ReAssure Forever**

Year 2: Once the policy is renewed:

Base Sum Insured	**ReAssure Forever is already triggered**	**1st Claim Paid**	**Balance Base Sum Insured**	**2nd payable claim**	**Claim amount paid**	**Balance Base Sum Insured**	**3rd Payable claim**	**Claim amount paid**
10 Lakh	10 Lakh	15 Lakh	Nil	12 Lakh	10 Lakh	Nil	10 Lakh	10 Lakh from

		10 Lakhs from Base Sum Insured and 5 Lakhs from ReAssure Forever			**ReAssure Forever**		**ReAssure Forever**	**ReAssure Forever** (this 10 Lakh will trigger unlimited times)

3.7. **Lock the Clock:** Your age is locked at entry when you buy the policy, till a claim is paid.

E.g. if you buy the policy at 25 years, you will keep paying the premium applicable for a 25 year old as per your vintage at each renewal, till a claim is paid in the policy. Post the claim is paid, the premium charged will be as per your current age and will continue to change as per applicable vintage and age at each renewal.

Note:

- In case of multi tenure policies, the premium for the entire tenure will be charged as per the entry age. If a claim is taken in the middle, the age will unlock for the remainder of the tenure and additional premium will be charged. This additional premium will be adjusted from the claim payout. If no claim is taken, then at renewal the premiums will be charged as per the entry age and & pre-existing waiting periods completed. Additional premium will be charged for the remaining one year tenures left. For example, for a 3 year policy, if a claim is incurred in first year, additional premium will only be charged for year 2 and year 3.
- If you add a member to the floater plan, then the premiums will be charged as per the entry age of the eldest member and will lock the premium at that age, till a claim is paid.
- If you add a member to an individual plan and convert it into a Floater plan, then the premiums will be charged as per the entry age of the eldest member and will lock the premium at that age, till a claim is paid.
- If the eldest member is no longer part of the Floater plan, then the Floater premium will be calculated as per the original entry age of the eldest member in the policy amongst the remaining members and lock at that age, till a claim is paid.
- If a floater plan, splits into multiple policies, then we will carry forward the locked age at which the floater policies were taken by individuals (as per the claim history) in the policies carried forward, till a claim is paid.
- In a multi individual policy, the age will unlock only for the individuals who claim.
- In a floater policy, if a claim is paid for anyone in the plan then we will unlock the age for the entire policy.
- We will consider a claim, if a claim is paid under the following: **Expenses in reaching a Hospital, Expenses during Hospitalization, Expenses before and after hospitalization, Home Care / Domiciliary Treatment, Organ Donor, Borderless, Borderless for Specified Illness.**

3.8. Booster+

Don’t lose what you don’t use.

Unutilized Base Sum Insured carries forward. Maximum it will accumulate up 10 times (based on the plan you have chosen) of the Base Sum Insured.

Example: If you have chosen Base Sum Insured of INR 10 lakh and Elite Variant, then at the end of 10 years (if you have made no claims in these years) you will have

1.10 Crore Sum Insured (that is 10 Lakh base + 1 Crore Booster+). Don't forget that you would have the ReAssure "Forever" (in case of claim) over and above the 1.10 Crore.

That's 11 times of Sum Insured than what you paid for.

Note:

- If you convert an Individual Sum Insured policy in any manner, into a floater plan, then the least of the Booster+ Sum Insured of individual insured members will be carried forward to the floater plan.
- If a floater plan, splits into multiple policies, then the Booster+ Sum Insured of floater plan will be carried forward to the split policies, provided the Base Sum Insured is not reduced.
- If you reduce the Base Sum Insured, Booster+ Sum Insured will be proportionately reduced. Let's say if you reduce the current INR 10 lakh Sum Insured to INR 5 lakh, your Booster+ Sum Insured will be halved.
- You can and should regularly increase Sum Insured of your Health insurance policy. Medical inflation is a reality and current Sum Insured will fall short in future for advanced treatments. When you enhance your Sum Insured, the accumulated Booster+ Sum Insured will continue and grow even more (remember Booster+ is up to maximum 10 times of the Base Sum Insured. Higher the Base Sum insured higher the Booster+ Sum Insured ☺).

3.9. Live Healthy

Simply walk and earn up to 30% discount at renewal, by downloading the recommended mobile App and get your **Health points**. 1000 steps will help you earn one health point!

Note: Discount is on the individual's premium in Individual plan and on Floater Policy Premium in Floater plans. Discount will be considered only for Insured's 18 years and above.

Renewal discount is computed based on the health score on 90 days before the due date of renewal. These points are not lost and will be considered for the next policy year.

Refund premium for the unexpired policy period, in respect of policies with term more than 1 year and risk coverage for such policy years are not commenced	We will refund part of the premium depending on how many days your policy has been running for, if there is no claim.
5.1.3. Renewal of Policy A health insurance policy shall be renewable except on grounds of established fraud or non-disclosure or misrepresentation by the insured. An insurer shall not deny the renewal of a health insurance policy on the ground that the insured had made a claim or claims in the preceding policy years, except for benefit based policies where the policy terminates following payment of the benefit covered under the policy. a. Request for renewal along with requisite premium shall be received by the Company before the end of the policy period. b. At the end of the policy period, the policy shall terminate and can be renewed within the Grace Period of 30 days (annual installment) to maintain continuity of benefits without break in policy. c. Coverage is available during the grace period.	

d. No loading shall apply on renewals based on individual claims experience. However, discount in premium may be provided by insurers to individual policyholders for good claims experience.
e. Insurer shall not resort to fresh underwriting by calling for medical examination, fresh proposal form etc at renewal stage where there is no change in sum insured offered. In case increase in sum insured is requested by the policyholder, the Insurer may underwrite only to the extent of increased sum insured

5.1.4. Possibility of Revision of Terms of the Policy Including the Premium Rates

The Company, with prior approval of IRDAI, may revise or modify the terms of the Policy including the premium rates. The Insured Person shall be notified three months before the changes are effected.

5.1.5. Nomination

The policyholder is required at the inception of the policy to make a nomination for the purpose of payment of claims under the policy in the event of death of the policyholder. Any change of nomination shall be communicated to the company in writing and such change shall be effective only when an endorsement on the policy is made. In the event of death of the policyholder, the Company will pay the nominee {as named in the Policy Schedule/Policy Certificate/Endorsement (if any)} and in case there is no subsisting nominee, to the legal heirs or legal representatives of the policyholder whose discharge shall be treated as full and final discharge of its liability under the policy. The insurer shall obtain nomination at the time of new business and at the time of renewal for existing policies.

5.1.6. Fraud

If any claim made by the insured person, is in any respect fraudulent, or if any false statement, or declaration is made or used in support thereof, or if any fraudulent means or devices are used by the insured person or anyone acting on his/her behalf to obtain any benefit under this policy, all benefits under this policy and the premium paid shall be forfeited.

Any amount already paid against claims made under this policy but which are found fraudulent later shall be repaid by all recipient(s)/policyholder(s), who has made that particular claim, who shall be jointly and severally liable for such repayment to the insurer.

For the purpose of this clause, the expression "fraud" means any of the following acts committed by the insured person or by his agent or the hospital/doctor/any other party acting on behalf of the insured person, with intent to deceive the insurer or to induce the insurer to issue an insurance policy: a) the suggestion, as a fact of that which is not true and which the insured person does not believe to be true; b) the active concealment of a fact by the insured person having knowledge or belief of the fact; c) any other act fitted to deceive; and d) any such act or omission as the law specially declares to be fraudulent

The Company shall not repudiate the claim and / or forfeit the policy benefits on the ground of Fraud, if the insured person / beneficiary can prove that the misstatement was true to the best of his knowledge and there was no deliberate intention to suppress the fact or that such misstatement of or suppression of material fact are within the knowledge of the insurer.

5.1.7. Withdrawal of Policy

Simplified for you

If we ever cancel your policy, it will be for Fraud or Non disclosure only. Insurance contract is a legal contract too and it's based on trust.
Fraud is an action by you or anyone acting on your behalf where you receive benefits, financial or otherwise, for which you are either not eligible at all or not to the extent under the policy.

Pay your renewal premium before end of policy period to maintain continuity of benefits. A grace period is also available to pay the premium after policy expiry.
Note: You are NOT insured during the grace period.

i. In the likelihood of this product being withdrawn in future, the Company will intimate the insured person about the same 90 days prior to expiry of the policy.

ii. Insured Person will have the option to either renew (up to 90 days from renewal date) same product or to migrate to a similar health insurance product available with the Company at the time of renewal with all the accrued continuity benefits such as cumulative bonus, waiver of waiting period as per IRDAI guidelines, provided the policy has been maintained without a break.

5.1.9. Claim settlement (Provision for Penal interest)

i. The Company shall settle or reject a claim, as the case may be, within 15 days from the claim submission date.

Simplified for you

We will cancel your policy, will not pay any claim, will not refund any premium paid and have right to take all possible legal action against you including for recovery of benefits paid earlier, if

- You withheld any information from us, whole or part that would have invited any decision other than a 'standard acceptance' of your application for insurance.

Note: Non standard decisions are:

- Loading – We ask for additional premium
- Exclusions – We apply a additional waiting period for health conditions or treatments
- Rejection – We hate to do this. But sometimes are compelled to say no to a customer

IMPORTANT: We understand you may not know how important is the information on your health and it's impact

ii. In the case of delay in the payment of a claim, the Company shall be liable to pay interest to the policyholder from the date of receipt of claim intimation till the date of payment of claim at a rate of 2% above the bank rate.

(Explanation: "Bank rate" shall mean the rate fixed by the Reserve Bank of India (RBI) at the beginning of the financial year in which claim has fallen due)

5.1.10. Moratorium Period

After completion of sixty continuous months of coverage (including portability and migration) in health insurance policy, no policy and claim shall be contestable by the insurer on the grounds of non-disclosure, misrepresentation, except on grounds of established fraud. The period of sixty continuous months is called as moratorium period. The moratorium will be applicable for the sums insured of the first policy. Wherever, the sum insured is enhanced, completion of sixty continuous months would applicable from the date of enhancement of sums insured only on the enhanced limits.

The policies would however be subject to all limits, sub limits, co-payments, deductibles as per the Policy contract.

Note: the accrued credits gained under the ported and migrated policies shall be counted for the purpose of calculating the Moratorium Period.

5.1.11. Multiple Policies

A. Indemnity Based Policies:

a. In case of multiple policies taken by an Insured Person during a period from one or more insurers to indemnify treatment costs, the Insured Person shall have the right to require a settlement of his / her claim in terms of any of his / her policies. In all such cases the insurer chosen by the Policyholder shall be considered as the Primary Insurer and will be obliged to settle the claim as long as the claim is within the limits of and according to the terms of the chosen Policy.

b. If the amount to be claimed exceeds the available coverage of the said policy, then the primary insurer shall seek the details of other available policies of the policyholder and shall coordinate with other insurers to ensure settlement pf the balance amount as per the policy conditions, without causing any hassles to the policy holder.

B. Benefit Based Policies:

a. On occurrence of the insured event, the policy holder can claim from all Insurers under all policies.

5.1.12. Migration

In case of migration of one policy to another with the same Insurer, the policyholder (including all members under family cover and group insurance policies) can transfer the credits gained to the extent of the Sum Insured, No Claim Bonus, Specific Waiting periods, waiting period for pre-existing diseases, Moratorium period etc. in the previous policy to the migrated policy.

The insurer may underwrite the proposal in case of migration, if the insured is not continuously covered for 36 months.

5.1.13. Portability

A Policyholder has the choice to port his/ her policies from one Insurer to another irrespective of individual or group policy subject to the Board approved underwriting policy of the insurers.

on your policy. Hence it's very important that you disclose all health information and we would decide how important (we call it 'material') it is.

- Cause fraud of any kind

Simplified for you

We will provide our decision on claim within 15 days from submission of all necessary claim documents. For any delay in payment of claim, we will pay interest on the claim amount at a rate 2% above bank rate.

.

Simplified for you

After 5 years, no health insurance claim shall be contestable except for proven fraud and permanent exclusions.

Simplified for you

In case you have multiple policies, you can choose the policy from which you want to claim first.

The policyholder is entitled to transfer the credits gained to the extent of the Sum Insured, No Claim Bonus, specific waiting periods, waiting period for pre-existing disease, Moratorium period etc. from the Existing Insurer to the Acquiring Insurer in the previous policy.	If claim amount exceeds the Sum Insured of first policy you claim from; then you can claim the balance amount from the second policy.
5.1.14. Disclosure of Information The Policy shall be void and all premium paid thereon shall be forfeited to the Company in the event of misrepresentation, mis-description or non-disclosure of any material fact by the policyholder. (Explanation: "Material facts" for the purpose of this policy shall mean all relevant information sought by the company in the proposal form and other connected documents to enable it to take informed decision in the context of underwriting the risk)	
5.1.15. Condition Precedent to Admission of Liability The terms and conditions of the policy must be fulfilled by the insured person for the Company to make any payment for claim(s) arising under the policy.	**Simplified for you** You can shift your policy to any other health insurance product / plan offered by us as per migration guidelines.
5.1.16. Complete Discharge Any payment to the policyholder, insured person or his/ her nominees or his/ her legal representative or assignee or to the Hospital, as the case may be, for any benefit under the policy shall be a valid discharge towards payment of claim by the Company to the extent of that amount for the particular claim.	
5.1.17. Premium Payment in Instalments If the insured person has opted for Payment of Premium on an instalment basis i.e. Half Yearly, Quarterly or Monthly, as mentioned in the policy Schedule/Certificate of insurance, the following Conditions shall apply (notwithstanding any terms contrary elsewhere in the policy)	**Simplified for you** You can also shift your policy to any other insurer as per portability guidelines.
i. Grace Period of 30 days in all types of policies, and a period of 15 days in case of monthly instalments. ii. For policies where premium is paid in instalments only, the coverage will be given during grace period. iii. The insured person will get the accrued continuity benefit in respect of the "Waiting Periods", "Specific Waiting Periods" in the event of payment of premium within the stipulated grace Period. iv. No interest will be charged If the instalment premium is not paid on due date v. In case of instalment premium due not received within the grace period, the policy will get canceled. vi. In the event of a claim, all subsequent premium instalments shall immediately become due and payable.	
5.2. Specific Terms and Clauses	
5.2.1. Automatic Cancellation: The Policy shall automatically terminate in the event of death of the all Insured Person(s). A refund in accordance with the table in Section 6.1.2 shall be payable provided that no claim has been admitted or lodged or not benefit has been availed by the insured person under the policy.	
5.2.2. Additional premium (Risk Loading) a. We may ask for additional premium after due risk evaluation (it's what referred to as Underwriting) based on all information provided by you. We	

will issue policy to you only after you pay us the additional premium and provide us consent.

b. There will be two types of loadings: i) where a loading is applied and the Pre-existing disease waiting period is applicable. ii) where a loading is applied and NO pre-existing disease waiting periods are applicable (this means you get Day 1 coverage for those diseases). You can make this choice at the time of policy issuance.

c. We will never ask for more than 100% for any particular health condition and never more than 150% for any individual.

d. Once applied, Risk loading continues even for all renewals. However, we offer discounts up to 30% under Live Healthy for maintenance and improvement in health

5.2.3. Other Renewal Conditions:

a. Renewal Premium:

Renewal premium will alter based on Age (in case of claim). For Floater plan, the age of eldest insured person will be considered for calculating the premium.

b. Addition of Insured Persons on Renewal:

If a new member is added in the Policy, either by way of endorsement or at the time of Renewal, the Pre-existing Disease clause, exclusions, loading (if any) and Waiting Periods will be applicable afresh for that member.

c. Changes to Sum Insured on Renewal:

You may opt for enhancement of Sum Insured at the time of Renewal, subject to underwriting. All Waiting Periods as defined in the Policy shall apply afresh for this enhanced limit from the effective date of such enhancement.

5.2.4. Claims

a. Cashless claim facility is available at our network hospitals ONLY. As list of network hospitals is dynamic, for the latest list, refer to our website www.nivabupa.com.

b. Documents required with claim form:

- Original Discharge summary with first and subsequent consultation papers.
- Original Final Hospital bill with detailed break-up and payment receipt (including pharmacy bills).
- Laboratory investigation reports with supporting prescriptions.
- MLC/First Information Report (FIR) (in accident cases).

Policyholder documents (Nominee in case of death of Policyholder):

- KYC documents
- Cancelled cheque

IMPORTANT:

- All documents **MUST** be submitted at the earliest possible time .
- For any delay in submission, You **MUST** provide the reasons in writing. We will condone such delay on merits (i.e. reasons beyond your control).
- You **MUST** submit all claim related documents for expenses within the Deductible amount (if applicable).
- We reserve the right to check and investigate the hospital / medical records from any doctor, Hospital, clinic, individual or institution.
- We reserve the right to have any case reviewed and independently evaluate by an external third party to ensure that either the consumer or the treatment offered is appropriate.

c. The expenses that are not covered or subsumed into room charges / procedure charges / costs of treatment are placed as Annexure I.
d. If you opt for a Hospital room which is higher than the eligible room category as specified in your Policy Schedule, then We will charge a flat co-pay as mentioned in your policy.
e. If two co-pays apply on the same claim, we will add them up.
f. For any hospitalization, we will pay for items included in the bill by the Hospital during the duration of hospitalization. Items not included in the bill will not be paid.

Please Note:

i. Once the final authorization request is received for discharge, the same will be processed within three hours from the final documents received. In case of delay from our end, any additional amount charged by the hospital will be borne by us. This amount will be paid over and above the policy limits.

ii. We offer Cashless Everywhere, even in hospitals which are not part of our network. For More details and process please visit our website: https://transactions.nivabupa.com/cashlessclaims/pages/intimation-claim.aspx

6. **Protocols**

Medicine is an 'evidence based' science. It follows protocols. Avoiding unnecessary and not indicated treatment is as important as administering the right treatment. Simply put, Unnecessary and not indicated treatment can harm, including putting life at risk.

One important principle in insurance is 'insurance or the state of being insured should not change one's healthcare purchase decision'. As a prudent & logical individual, everyone, while availing treatment for any condition, considers cost versus outcome.

A. Medical protocols

We will periodically publish and refresh medical protocols on our website. These protocols will be based on Textbook, AIIMS, ICMR, Clinical Establishment Act, PMJAY, Various state schemes' protocols, Department of health research under Ministry of Health, Mayo clinic, Cleveland clinic, NICE.org etc. These protocols will provide

- Indication for hospitalization: The criteria for hospitalization in to various category of rooms (ICU, Normal room etc.)
- What is the right treatment (medicine, procedure) for the condition & severity?

Any treatment, medicine not approved by CDSCO, FDA and other appropriate authorities in India will not be covered. We will also use instructions on the drug, procedure published by manufactures, approver of the drug, procedure in different countries especially the country of discovery or invention on indications, contraindications, usage etc. Extra / Off label usage (using a drug or procedure for conditions other than it was explicitly approved for) will not be covered under the policy.

B. Position statements

As a responsible insurer, we will transparently publish on our website what we refer to as 'Position Statements'. These will essentially clarify our position on coverage of various treatments. We may fully pay, part pay, suggest alternatives, investigate, or even deny certain medicines, procedures, investigations, therapies etc. If in any treatment our position, based on scientific evaluation, is not to pay or pay only a part, we will at least pay up to the cost of currently prevailing most common alternative treatments for the condition and not less. Medicine is an ever evolving world with newer technologies and treatments being introduced. Many of which may not provide cost adjusted superior outcomes as compared to other existing alternatives. These position statements will tap in to Globally available resources like AIIMS, ICMR, Clinical Establishment Act, PMJAY, Various state schemes' protocols, Department of health research under Ministry of Health, Mayo clinic, Cleveland clinic, NICE.org etc. The position statements will be based on various Health Technology Assessments, Health Economic Evaluation, Cost Benefit analysis, Cost Efficiency analysis other than various other researches done Globally and published in reputed journals. Any research data with conflict of interest will be discarded for the purpose.

C. Prolonged Hospitalization

- We encourage you to intimate to us as much earlier as possible before any hospital admission.
- In any event if you fail to intimate to us before admission in to a hospital, please intimate as soon as possible after admission.
- You MUST intimate to us if your hospitalization duration exceeds 7 days. In event of failure to intimate within 7 days from date of hospitalization, an additional cumulative co-payment of 10% will be levied on your final admissible amount. This duration will be relaxed to a maximum of 9 days only for road traffic accidents.

D. Organ Transplants

- You MUST intimate to us, even for hospitalization in Non-Network hospital, at least 7 days before live donor organ transplant
- You MUST intimate to us, even for hospitalization in Non-Network hospital, as early as feasible, not exceeding 48 hours from the date and time of admission in event of cadaveric organ transplant

- In all liver & Pancreas transplants, biopsy must be performed on the organ. We reserve the right to collect the biopsy slide & tissue block and get opinion and fresh biopsy done from other independent experts. Our final decision to honor the claim will be based on these independent expert opinions.
- If you get treated in a non-network hospital, and fail to intimate us or share the biopsy as indicated above, an additional co-payment of 10% will be applied on the admissible claim amount

List of Critical Illnesses

S. No.	List of Critical Illness	Definition	*What Does it Mean*
1	Cancer of Specified Severity	I. A malignant tumor characterized by the uncontrolled growth and spread of malignant cells with invasion and destruction of normal tissues. This diagnosis must be supported by histological evidence of malignancy. The term cancer includes leukemia, lymphoma and sarcoma. II. The following are excluded - i. All tumors which are histologically described as carcinoma in situ, benign, pre-malignant, borderline malignant, low malignant potential, neoplasm of unknown behavior, or non-invasive, including but not limited to: Carcinoma in situ of breasts, Cervical dysplasia CIN-1, CIN - 2 and CIN-3. ii. Any non-melanoma skin carcinoma unless there is evidence of metastases to lymph nodes or beyond; iii. Malignant melanoma that has not caused invasion beyond the epidermis; iv. All tumors of the prostate unless histologically classified as having a Gleason score greater than 6 or having progressed to at least clinical TNM classification T2N0M0 v. All Thyroid cancers histologically classified as T1N0M0 (TNM Classification) or below; vi. Chronic lymphocytic leukaemia less than RAI stage 3	*Cancer (also known as a malignant tumour) is a disease where cells change and grow in an abnormal way. If left untreated, they can destroy surrounding healthy cells and eventually destroy healthy cells in other parts of the body. There are about 200 different types of cancer, varying widely in outlook and treatment.*

		vii. Non-invasive papillary cancer of the bladder histologically described as TaN0M0 or of a lesser classification, viii. All Gastro-Intestinal Stromal Tumors histologically classified as T1N0M0 (TNM Classification) or below and with mitotic count of less than or equal to 5/50 HPFs	
2	Myocardial Infarction (First Heart Attack of specific severity)	I. The first occurrence of heart attack or myocardial infarction, which means the death of a portion of the heart muscle as a result of inadequate blood supply to the relevant area. The diagnosis for Myocardial Infarction should be evidenced by all of the following criteria: i. A history of typical clinical symptoms consistent with the diagnosis of acute myocardial infarction (For e.g. typical chest pain) ii. New characteristic electrocardiogram changes iii. Elevation of infarction specific enzymes, Troponins or other specific biochemical markers. II. The following are excluded: i. Other acute Coronary Syndromes ii. Any type of angina pectoris iii. A rise in cardiac biomarkers or Troponin T	*A heart attack, also known as a myocardial infarction, happens when part of the heart muscle dies because it has been starved of oxygen. This causes severe pain and an increase in cardiac enzymes and troponins, which are released into the blood stream from the damaged heart muscle.*

		or I in absence of overt ischemic heart disease OR following an intra-arterial cardiac procedure.	
3	Open Chest CABG	I. The actual undergoing of heart surgery to correct blockage or narrowing in one or more coronary artery(s), by coronary artery bypass grafting done via a sternotomy (cutting through the breast bone) or minimally invasive keyhole coronary artery bypass procedures. The diagnosis must be supported by a coronary angiography and the realization of surgery has to be confirmed by a cardiologist. II. The following are excluded: i. Angioplasty and/or any other intra-arterial procedures	*Coronary arteries can become narrowed or blocked by the build-up of fatty deposits caused by poor lifestyle such as high fat diet, smoking and high blood pressure. This may cause symptoms including chest pain and can sometimes cause a heart attack.* *Coronary artery by-pass surgery is used to treat blocked arteries in the heart by diverting the blood supply around the blocked artery using a vein, usually taken from the leg, arm or chest. This definition covers surgery if it requires the heart to be reached by a surgical incision through the chest wall or sternum (breastbone), to*

			replace the blocked arteries with a vein.
4	Open Heart Replacement or Repair of Heart Valves	The actual undergoing of open-heart valve surgery is to replace or repair one or more heart valves, as a consequence of defects in, abnormalities of, or disease-affected cardiac valve(s). The diagnosis of the valve abnormality must be supported by an echocardiography and the realization of Surgery has to be confirmed by a specialist medical practitioner. Catheter based techniques including but not limited to, balloon valvotomy/valvuloplasty are excluded.	*Heart valve repair or replacement surgery is done when valves are damaged or diseased and do not work the way they should. When one (or more) valve(s) becomes stenotic (stiff), narrowed or diseased due to any reasons, the heart must work harder to pump the blood through the valve. If your heart valve(s) becomes damaged, you may have the following symptoms:* *• Dizziness* *• Chest pain* *• Breathing difficulties* *• Palpitations* *• Edema (swelling) of the feet, ankles, or abdomen (belly)* *• Rapid weight gain due to fluid retention* *This definition implies a large*

			surgical incision made in the chest and the heart stopped for a time so that the surgeon can repair or replace the valve(s).
5	Coma of Specified Severity	A state of unconsciousness with no reaction or response to external stimuli or internal needs. This diagnosis must be supported by evidence of all of the following: a) no response to external stimuli continuously for at least 96 hours; b) life support measures are necessary to sustain life; and c) permanent neurological deficit which must be assessed at least 30 days after the onset of the coma. The condition has to be confirmed by a specialist medical practitioner. Coma resulting directly from alcohol or drug abuse is excluded.	*A coma is a state of unconsciousness from which the patient cannot be aroused and has no control over bodily functions. It may be caused by illness, stroke, infection, very low blood sugar or serious accident. Recovery rates vary, depending upon the depth and duration of the coma.*
6	Kidney Failure Requiring Regular Dialysis	End stage renal disease presenting as chronic irreversible failure of both kidneys to function, as a result of which either regular renal dialysis (hemodialysis or peritoneal dialysis) is	*The kidneys perform an important role filtering the body's waste to pass as urine. If the kidneys fail, there is a*

		instituted or renal transplantation is carried out. Diagnosis has to be confirmed by a specialist medical practitioner.	*harmful build up of the body's waste products. In severe cases it may be necessary for the filtering to be done by a dialysis machine or, in some cases, a transplant may be needed.*
7	Stroke Resulting in Permanent Symptoms	Any cerebrovascular incident producing permanent neurological sequelae. This includes infarction of brain tissue, thrombosis in an intracranial vessel, haemorrhage and embolisation from an extracranial source. Diagnosis has to be confirmed by a specialist medical practitioner and evidenced by typical clinical symptoms as well as typical findings in CT Scan or MRI of the brain. Evidence of permanent neurological deficit lasting for atleast 3 months has to be produced. The following are excluded: i. Transient ischemic attacks (TIA) ii. Traumatic Injury of the brain iii. Vascular disease affecting only the eye or optic nerve or vestibular functions	*Strokes are caused by a sudden loss of blood supply or haemorrhage to a particular part of the brain. The symptoms and how well a person recovers will depend on which part of the brain is affected and the extent of the damage. A transient ischaemic attack, sometimes referred to as a 'mini-stroke', does not result in any permanent neurological deficit. These are not covered by this definition, because symptoms aren't permanent and will disappear within 24 hours.*

8	Major Organ/Bone Marrow Transplant	The actual undergoing of a transplant of: • One of the following human organs: heart, lung, liver, kidney, pancreas, that resulted from irreversible end-stage failure of the relevant organ, or • Human bone marrow using haematopoietic stem cells. The undergoing of a transplant has to be confirmed by a specialist medical practitioner. The following are excluded: • Other stem-cell transplants • Where only islets of langerhans are transplanted	*An organ may become so diseased that it needs to be replaced.*
9	Permanent Paralysis of Limbs	Total and irreversible loss of use of two or more limbs as a result of Injury or disease of the brain or spinal cord. A specialist medical practitioner must be of the opinion that the paralysis will be permanent with no hope of recovery and must be present for more than 3 months.	*Paralysis is the complete loss of use. It may be caused by injury or illness. A limb is an arm or leg.*
10	Motor Neurone Disease with Permanent Symptoms	Motor neurone disease diagnosed by a specialist medical practitioner as spinal muscular atrophy, progressive bulbar palsy, amyotrophic lateral sclerosis or primary lateral sclerosis. There must be progressive degeneration of corticospinal tracts and anterior horn cells or bulbar efferent neurons. There must be current significant and permanent functional neurological impairment with objective evidence of motor dysfunction that has persisted for a	*Motor neurone disease (MND) is a gradual weakening and wasting of the muscles, usually beginning in the arms and legs. This may cause difficulty walking or holding objects. As the disease develops, other muscle groups may be affected, such as those involving speech, swallowing and*

		continuous period of at least 3 months.	*breathing. Eventually, 24 hour care may be needed.*
11	Multiple Sclerosis with Persisting Symptoms	I. The unequivocal diagnosis of Definite Multiple Sclerosis confirmed and evidenced by all of the following:: i. investigations including typical MRI findings which unequivocally confirm the diagnosis to be multiple sclerosis and ii. there must be current clinical impairment of motor or sensory function, which must have persisted for a continuous period of at least 6 months. II. Neurological damage due to SLE is excluded.	*Multiple sclerosis (MS) is the most common disabling neurological disease among young adults and is usually diagnosed between the ages of 20 and 40.*
12	Aplastic Anaemia	Aplastic Anemia is chronic persistent bone marrow failure. A certified hematologist must make the diagnosis of severe irreversible aplastic anemia. There must be permanent bone marrow failure resulting in bone marrow cellularity of less than 25% and there must be two of the following: a) Absolute neutrophil count of less than 500/mm³ b) Platelets count less than 20,000/mm³ c) Reticulocyte count of less than 20,000/mm³ The Insured Person must be receiving treatment for more than 3 consecutive months with frequent blood product transfusions, bone marrow stimulating	*Aplastic anaemia is a serious condition where bone marrow fails to produce sufficient blood cells or clotting agents. Symptoms include shortness of breath, excessive bleeding and an increased chance of catching infections.*

		agents, or immunosuppressive agents or the Insured Person has received a bone marrow or cord blood stem cell transplant. Temporary or reversible Aplastic Anemia is excluded and not covered under this Policy.	
13	Bacterial Meningitis	Bacterial meningitis is a bacterial infection of the meninges of the brain causing brain dysfunction. There must be an unequivocal diagnosis by a consultant physician of bacterial meningitis that must be proven on analysis and culture of the cerebrospinal fluid. There must also be permanent objective neurological deficit that is present on physical examination at least 3 months after the diagnosis of the meningitis infection.	*Bacterial meningitis causes inflammation to the meninges, which is the protective layer around the brain and spinal cord. It's caused by a bacterial infection and needs prompt medical treatment. Initial symptoms include headache, fever and vomiting.*
14	Loss of Speech	I. Total and irrecoverable loss of the ability to speak as a result of injury or disease to the vocal cords. The inability to speak must be established for a continuous period of 12 months. This diagnosis must be supported by medical evidence furnished by an Ear, Nose, Throat (ENT) specialist.	*The total loss of the ability to speak. It's often caused when the vocal cords need to be removed because of a tumour or a serious injury.*

15	End Stage Liver Disease	Permanent and irreversible failure of liver function that has resulted in all three of the following: a) Permanent jaundice; and b) Ascites; and c) Hepatic Encephalopathy. Liver failure secondary to drug or alcohol abuse is excluded.	*The liver is an important organ, which carries out several of the body's vital functions such as helping with digestion and clearing toxins. This definition covers liver failure at an advanced stage. This type of liverfailure leads to permanent jaundice (yellow discolouration of the skin), ascites (build up of fluid in the abdomen), and encephalopathy (brain disease or damage).*
16	Deafness	Total and irreversible loss of hearing in both ears as a result of illness or accident. This diagnosis must be supported by pure tone audiogram test and certified by an Ear, Nose and Throat (ENT) specialist. Total means "the loss of hearing to the extent that the loss is greater than 90decibels across all frequencies of hearing" in both ears.	*This means permanent loss of hearing in both ears, measured by using an audiogram across different frequencies, which vary from low to high pitch.*
17	End-stage Lung Disease	End stage lung disease, causing chronic respiratory failure, as evidenced by all of the following: a) FEV1 test results consistently less than 1 litre measured on 3 occasions 3 months apart; and b) Requiring continuous permanent supplementary oxygen therapy for hypoxemia; and c) Arterial blood gas	*The lungs allow us to breathe in oxygen and get rid of harmful carbon dioxide. The definition of End Stage Lung Disease covers advanced lung failure when breathing is severely affected and regular oxygen therapy is required.*

		analyses with partial oxygen pressures of 55mmHg or less (PaO2< 55mmHg); and d) Dyspnea at rest. This diagnosis must be confirmed by a respiratory physician.	
18	Fulminant Viral Hepatitis	A sub-massive to massive necrosis of the liver by any virus, leading precipitously to liver failure. This diagnosis must be supported by all of the following: a) rapid decreasing of liver size; and b) necrosis involving entire lobules, leaving only a collapsed reticular framework; and c) rapid deterioration of liver function tests; and d) deepening jaundice; and e) hepatic encephalopathy. Acute Hepatitis infection or carrier status alone does not meet the diagnostic criteria.	*Appearance of severe systemic complications like sepsis, gastro-intestinal bleeding, cerebral oedema, renal and cardiac failure, rapidly after the first signs of liver disease (such as jaundice), and indicates that the liver has sustained severe damage.*
19	Third Degree Burns	There must be third-degree burns with scarring that cover at least 20% of the body's surface area. The diagnosis must confirm the total area involved using standardized, clinically accepted, body surface area charts covering 20% of the body surface area.	

20	Muscular Dystrophy	Muscular Dystrophy is a disease of the muscle causing progressive and permanent weakening of certain muscle groups. The diagnosis of Muscular Dystrophy must be made by a consultant neurologist, and confirmed with the appropriate laboratory, biochemical, histological, and electromyographic evidence. The disease must result in the permanent inability of the Insured Person to perform (whether aided or unaided) at least three (3) of the six (6)"Activities of Daily Living". Activities of Daily Living are defined as: i. Washing : the ability to maintain an adequate level of cleanliness and personal hygiene ii. Dressing : the ability to put on and take off all necessary garments, artificial limbs or other surgical appliances that are Medically Necessary iii. Feeding : the ability to transfer food from a plate or bowl to the mouth once food has been prepared and made available iv. Toileting : the ability to manage bowel and bladder function, maintaining an adequate and socially acceptable level of hygiene v. Mobility : the ability to move indoors from room to room on level surfaces at the normal place of residence vi. Transferring: the ability to move from a lying position in a bed to a sitting position in an	

		upright chair or wheel chair and vice versa.
